

# Williams GP Orthodontic Seminars

## PREMIER ORTHODONTIC PATIENT PROGRAM

1400 W 4th St  
Skiatook, OK 74070  
918-396-3711

To primary general dentist,

In order to begin orthodontic treatment, we require this to be completed by the patient's primary general dentist. This is to make sure the patient's oral health meets the standards required to start orthodontic treatment. If you are unable to check all statements listed below to clear patient for orthodontic treatment, we can't start treatment. Patient will need to be up to date on all general dentistry treatment before orthodontic treatment can start.

Please contact our office if you have any questions.

Patient: \_\_\_\_\_ DOB: \_\_\_\_\_

Date of last dental exam: \_\_\_\_\_

Please check all that apply:

\_\_\_\_\_ Patient has received an oral examination and was found to be free of untreated oral disease or other conditions that make orthodontic treatment unsuccessful or harmful.

\_\_\_\_\_ Patient demonstrates oral hygiene habits consistent with being able to prevent inflammation and dental decay during orthodontic treatment.

\_\_\_\_\_ Patient does not have active periodontal disease.

\_\_\_\_\_ Patient has all needed dental treatment completed and is able to start orthodontic treatment.

If unable to check all statements listed above, please list conditions that still needs treatment:
